BEEF PROFITABILITY \$\$\$\$\$\$

Combined industry research indicates Limousin cattle, on average, have a \$45 per head feed cost advantage and a dressing advantage of 1-2%.

Further data indicates each increase in dressing percentage equates to an additional \$25 per head.

We really like these EXLR Benchmark daughters. She is out of a Wulf's Guardian daughter we purchased from Potter Limousin and BOHI Top Dollar. She is double black and double polled. Bailey is bred back to GV Xcellsior 966B, pasture exposed 12-3-16 to 1-28-17.

LOT 27A. Bull calf born 11-23-16. Double Black and Double Polled. Sired by KGUM B-Xclusive 411B, a Wulf Xclusive son we raised from our granddaughter's KRVN Naskar show heifer PTAL Yoo Hoo 102Y.

NALF-Tyson Fresh Meats LIMOUSIN GRID

Market Cattle on the Limousin Grid

Marketing Opportunity for Limousin cross fed cattle. For more information contact the NALF office at 303-220-1693 or visit NALF.org.

The North American Limousin Foundation (NALF) in an effort to further promote Limousin genetics, has teamed up with Tyson Fresh Meats to create a value-added cattle feeding pricing program. Tyson is offering feeders the opportunity to market cattle on a Limousin Grid, which is designed to pay substantial premiums for conventionally fed cattle. This grid rewards cattle that excel in quality and yield grade.

Limousin cross cattle have the ability to do well on this grid given their natural ability for yield and grade. The advantages of Limousin cattle to put a high percentage of cattle into the Yield Grade 1 and 2 categories while achieving quality grade standards when fed correctly with a moderate implant program equals premiums for the feeder.
